

J and D Maintenance began in 1987 as a handshake between Everett J. Crowell and Darnell Evans. In 1988, a legal documents were written up to establish J and D Maintenance as a legal partnership under Florida State laws to perform work characterized as Lawn Maintenance. During the first 10 years of operation, the company went through the pains of growing and learning the business; this was followed by 13 years of formal business experience with a deep focus on quality customer service.

In a world where the majority of businesses fail in the first 3 years, our company has prospered for over 20 years under the original owners.
